

ROTC SCHOLARSHIPS FOR ALL MILITARY BRANCHES

ROTC stands for Reserve Officer Training Corps, and this program is offered in 1,700 universities and colleges throughout the US. ROTC helps college students, male and female, to prepare to enter a military career as officers in one of the three branches in which it is offered: Army, Air Force, and the Navy/Marines. The Coast Guard doesn't have an ROTC program for students interested in a career in this particular military branch.

Students in each branch of the ROTC benefit from scholarships, monthly stipends and a career that is guaranteed after graduation. Students in ROTC also derive benefits from learning how to develop valued leadership skills, discipline and good physical fitness.
